5.2.2 Average percentage of Outgoing students progressing to higher education during last five years

Year	2016-17	2017-18	2018-19	2019-20	2020-21
Number of Outgoing Students progressing to higher education	02	23	29	44	39
Total Number of Final Year Students	84	152	104	142	202

The following formula is used for calculation as per the NAAC Manual:

$$= \frac{Number\ of\ Outgoing\ Students\ progressing\ to\ higher\ education\ \times 100}{Total\ Number\ Final\ Year\ Students}$$

With the help of the above formula, the percentage per year values are obtained as follows:

Year	2016-17	2017-18	2018-19	2019-20	2020-21
percentage per year	2.38	15.13	27.88	30.98	19.30

Further, with the help of the percentage per year values, average percentage is calculated as follows:

$$Average\ percentage = \frac{\sum Percentage\ per\ year}{5}$$

$$= \frac{2.38+15.13+27.88+30.98+19.30}{5}$$

$$= 19.134\%$$

Thus, Average percentage of Outgoing students progressing to higher education during last five years is 19.134%
